DETAILED ACTION

Acknowledgment is made of the amendment filed on 8/01/05. Claims 1-39 are currently pending.

1. This application is in condition for allowance except for the following formal matters:

in claim 1, lines 2-3, delete “at least one”;

in claim 1, line 17, insert --- at the end of the sentence;

in claim 15, line 3, delete “at least one of”;

in claim 18, line 4, substitute “it” with --the scanning patch--;

in claim 27, line 1, substitute “and” with --or--; and

in claim 28, line 1, substitute “and” with --or--.

Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-39 are allowable over prior art.

3. The following is a statement of reasons for the indication of allowable subject matter:

although the Pierenkemper invention teaches a combined sensing device, the prior art of record fails to teach or fairly suggest either alone or in combination thereof a sensing device including a processor for generating indicating data indicative of a position of the sensed coded data on the interface surface and the identity of the product item. Furthermore, the examiner could find no

proper motivation to combine the Pierenkemper invention with any teaching to arrive at the claimed invention.

Conclusion

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

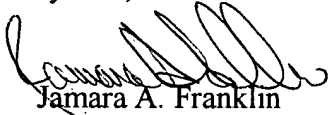

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
